

“People First”

**There’s a different *KIND* of business in town ...
a new breed of company whose priorities place *ethics* before profits.**

You will soon have a place to go, right here in Woodland, that offers a wide range of services to meet your business and personal needs. It’s new, yet it’s home to individuals who have provided quality, cost-effective, *conscientious* goods and services locally and regionally for over thirty (that’s 30!) years. We’re teaming up--like nerdy superhero’s--and throwing caution to the wind to create a company unlike any other to establish a new level of trust with people and businesses like those that have helped made us successful over the decades.

From computers & printers to scanners & copiers, from wired LAN’s to wireless communications, from electronic scrap-booking to home gaming & entertainment, from automotive improvements to home energy management. We will strive to provide solutions over the widest range of technologies available anywhere, all under one roof. Save a drive to the big city for professional consulting, sales, and services. They will soon be available, together, right here in your own backyard!

**Our multi-skilled departments work together
to address business and personal needs, holistically and masterfully.**

Now you will need remember just one name, one phone number, one e-mail address to solve any technology problem, no matter how challenging. It will always be safe to trust us to provide honest, knowledgeable guidance even if that means referring you to another reputable company. It is this unique business approach that will make it possible to offer the “One-Stop Experience” designed to save our customers time, money, and frustration. We consider expert skills, responsive support, and courteous manner to be of paramount importance. Though jacks of many trades, we are *masters* in the art of solving problems with a human touch!

What makes us so different?

- We strive to be honest, sincere, and realistic in all our business dealings. **No broken promises!**
- We meet the needs of individuals and small-to-medium businesses alike. **Nobody left behind!**
- We take pride in providing win-win-win solutions, not in maximizing profits. **No proud prices!**
- If it’s broke, we’ll fix it, at least if that makes sense. By extending the life of consumer goods & electronics we can best address the problem of spiraling global waste. **No throw-away mentality!**
- If it *ain’t* broke we *won’t* fix it, at customers’ expense, to make our boat payments. **No Scams!**
- We keep pace with the rapidly evolving industries while *never* forsaking support for comfortable older technology that is sufficient for its purpose or just plain loved. **No contempt for the aged!**

Experience the *KIND* Difference!
